Music chills my AVH (voices). They say things that lead me to youtube based music. But playing some appropriate tracks, through a good speaker and wotnot, really chills my voices and makes life better, If you are interested in a different approach to listening, I recommend Soundcloud. I have a chann...

**Drafts****Question about my coping strategies when delusional**

**Likes****Bookmarks****✓ Solved**

I keep away from deeply truthful statements when talking to professionals, and as a qualified strategist, I discuss my delusions with the cause of them. I can accurately state that my delusions all stem from statements made by me AVH/VH (voices), because all other occurrences in my life can be adequ...

ALways discuss with your clinician, and comply with any changes made to your meds. You will be harshly treated if you are not fully and totally compliant with your directions. But as an Australian who reads a great deal on US schizophrenia and voices websites, I would add that Americans are heavily ...

What a great post. I am intrigued by such contemplations. I would like to add to these considerations noting that I am an older schizophrenic, so have an advatage in the amount of time I have had to make similar considerations. It really depends on what field you answer the questions inh. Pyshciatr...

Yes, interesting as it seems, I feel I must add that whether someone has schizophrenia or not, even if they were in Albert Einsteins family, this diagnostic label does not really imply or impart anything other than interest to a persons life. This diagnosis will not make them smarter, faster, slower...

My AVH are 'telling' me that my brother, and two other girls, both of whom I know (one is my teacher at TAFE, the other my social worker, are having rampant pornographic style sex at AMHU (adult mental health unit). My vices absolutely refuse to clarify by way of any answers to my question. The issu...

May I respectfully point out, that humans do not have different brain morphologies.

### **What is your addiction?**

✓ Mar 22, '21

I got abducted into telepathy, that the perpetrators call Freemasonry. I believe it is the most powerful addiction on Earth, and it is as yet unmeasured. The people that watch and hate me constantly, have only paused from torturing me for approximately 150 hours in approximately 52,000 hours of tort...

I notice you did not disclose your qualifications within the body of your comment. Please forgive my impudence, but simply quoting someones work as a reference, does not validate your support for the "Neurophysiological investigations" you describe. But I thank you for your writing that was very in...

I'm sorry, but I don't see the trauma in your narrative. Just seems like trip advisor.

**🔒 A Request From My Voices - Rather Than A Demand**

✓ Jan 16, '21

Recently I have deduced what orthodox clinicians would reject, but my voices have in the past month or more, failed to repudiate or reject. This seems to be a first for them, with the repugnant hatred and indifference that leads them to hate crimes resulting in multiple suicides, that I call murders...

I can't believe it. My schizophrenia voices say that they are Freemasons!! How can that be? I have heaps of 1st transcripts (transcript notes / journal entries of exactly what my voices say) where I can prove that they say they are Freemasons. And there was a girl on Dr Phil who heard the same thi...

✓ Mar 8, '20

Yes, I have tactile hallucinations, sometimes more intense than other times. Unfortunately I have a dual diagnosis, and these tactiloe hallucinations only seem to respond to one method of amelioration. They are combined with my voices who insist on me committing suicide. They say they are settingjg m...

### **What do the voices/thoughts say to you?**

 Mar 2, '20

I have an extensive set of transcripts of what my voices say to me. I would be happy to send some to you if you want. Up until last Thursday night (27/02/20) I had some blogs and web pages that showed what my voices say. But on that night I got punched in the throat by a man, and I believe it was re...

### **How do you Stop watching Porn?**

 Mar 2, '20

I have to watch it, because I personally know so many of the people acting in it. I regularly have to purchase porn DVD's from my local store, to check if the people my voices say are making it with them, are in fact with them. AND I am astounded at how often they are. It seems highly improbable that...

### **How do you deal with always being spied on?**

Jan 10, '20

I deal with it by asking questions (of my voices). I engage and ask them straight out - "what do you want from me?", "what are you here for?", "why are you spying on me?", "what do you hope to learn?". Then I faithfully record their answers (along with the questions).
